

## Falling Down

Pennywise

Falling Down everyday  
to where I can't be found  
Left like some wreckage that's been  
shot down over sacred ground  
Can't find a place for refuge  
safe exits slip away  
No chance for my redemption  
stumbling towards an early grave

Falling everyday  
farther all the time  
Searching for something there  
something i can never find  
Falling everyday  
farther all the time  
Searching for something there  
something i can never find

Without a sound  
the silence waits  
keeps pulling me back down  
I push against it but there is no use I can't stop now  
No place I can hold to  
how much further can i go  
Sliding down into the darkness  
waiting for the fatal blow
