

Greed

Pennywise

Everything you see you always think you need
You are so crazy motivated by greed
You never take responsibility
You only waste your time when you fuck with me
All you do is take you see my hatred grows
Can't take much more I'm about to explode
You'll see a side Of me I've never shown
You'll feel pain like you've never known
Got enough but you want it all
In it for greed now you're gonna fall
Here we come gonna ruin your day
Time has come It's your turn to pay
The mighty dollar is your only care
You're movin' up but you're going nowhere
You say you only want to get your share
But you still want more no you won't play fair
you'll never ever quit you won't be denied
You sit and watch your money multiply
To get what you want you'll cheat and lie
But I know - you won't be satisfied
Today is a good day for suffering
