

I Can Remember

Pennywise

Sometimes I think of you
And all the fun things we used to do
And when I think of the past
Seems like it went by too fast
At night I scream out loud
Wondering where are you now
Why did you go away - and leave me here to stay

But I can hope, I can remember
And think of all the happy times we spent together
But I can hope, I can remember
And think of all the happy times we spent together

Sometimes I see your face
Especially on those rainy days
Where did it all go wrong?
But I know that life goes on
Then I start wondering
If I'll see your face again
And now that childhood dream
It makes sense to me

But I can hope, I can remember
And think of all the happy times we spent together
But I can hope, I can remember
And think of all the happy times we spent together

And now our hopes and dreams
Fade into memories
And I keep them all inside of me
And now I'll carry on
Knowing that when things go wrong
You will be smiling down on me

But I can hope, I can remember
And think of all the happy times we spent together
But I can hope, I can remember
And think of all the happy times we spent together

But I can hope, I can remember
And think of all the happy times we spent together
But I can hope, I can remember
And think of all the happy times we spent together
