Public Defender

Pennywise

There's something you must understand They have a final plan To spread their rule across the land We have to make a stand

They wanna fight losers Unite Let's give 'em something they'll remember Hey Bourgeoisie listen to me We need a new public defender

Don't turn your head don't look away We gotta force our fate They hold the cards they rig the game Til you refuse to play

They wanna fight losers Unite Let's give 'em something they'll remember Hey Bourgeoisie listen to me We need a new public defender

There's something you must understand They have a final plan To spread their rule across the land We have to make a stand

They wanna fight losers Unite Let's give 'em something they'll remember Hey Bourgeoisie listen to me We need a new public defender
