

Well it's up to you what you really want to do
take time - to find a way
Focus on your vision you're on a secret mission
Ignore what the masses say
Well it's up to me what I really want to be
And I'm still searching for the day
We got to fight we got to feel
we got to know that this is real
If we're going to win this race
We gotta rise up open our eyes up
Take this vision and stop another casualty
You want it all for free then you'll get nothing
That's the way its gotta be
Well your point of view it belongs to you
no one - can take it away
Dare to envision hold on to your decision
Take control of each passing day
Well it's plain to see all the loss
And tragedy you can watch the worlds slow decay
Or we can change our destiny
our visions never gonna change
Well it's up to you what you really want to do
take time - to find a way
Focus on your vision you're on a secret mission
Ignore what the masses say
Life's not free yeah who you gonna be
yeah another victim of society
But you don't listen
you're on a mission
searching for another way
We gotta rise up open our eyes up
Take this vision and stop another casualty
You want it all for free then you get nothing
That's the way its gotta be
