

Set Me Free

Pennywise

Life is a lesson you can only learn for free
and time keeps on slippin'
like a faded memory
And I got the answers starin' right in front of me,
time heals my soul
Set me free, set me free, set me free, set me free
I stand about, face my mission,
you don't know what you've been missin'

There is a reason for all that comes to be
My troubled life riddled with dark insanities
I need solutions through the pain that surrounds me,
time heals my soul

Set me free, set me free, set me free, set me free
I stand about, face my mission,
you don't know what you've been missin'

Life is a lesson you can only learn for free
and time keeps on slippin'
like a faded memory
And I got the answers starin' right in front of me,
time heals my soul

Set me free, set me free,
set me free, set me free
