

Violence Never Ending

Pennywise

Mindless people wanna figure it out
Games that we play make you wanna shout
Taking my time to make the best of life
Just one chance to wanna get it right

Cause everything left in my sight
Is a fight for freedom with all my might

Wanna make you, make you understand
Something we're not comprehending, it's outta hand
Wanna make you, wanna make you see
That until we will stop pretending, it's violence never ending
Til we all get blown away

Raise up the flagpole till ya shoot it down
Salute that flag now better safe than sound
Choose your best side gotta join that fight
Just one chance to gotta get it right

Cause everything left in my sight
Is a fight for freedom with all my might

Wanna make you, make you understand
Something we're not comprehending, it's outta hand
Wanna make you, wanna make you see
That until we will stop pretending, it's violence never ending
Til we all get blown away
get blown away
get blown away
all get blown away

Wanna make you, make you understand
Something we're not comprehending, it's outta hand
Wanna make you, wanna make you see
That until we will stop pretending, it's violence never ending
Til we all get blown away
get blown away
get blown away
all get blown away
all get blown away
