

# Natural Disaster

Pentatonix

My heart was blowing in a hurricane  
My heart was blowing in your love, in your love  
My heart was flying in a tornado  
My heart was flying in your love, in your love

You see I tried  
Baby, oh did I try  
The more I get closer to you, the more I know you just won't do  
You see I tried  
Girl you know I tried, but you're a natural disaster  
You're a natural disaster

My mind was frozen in the blizzards  
My mind was frozen in your love, in your love  
My mind was burning in the wildfire  
My mind was burning in your love, in your love

You see I tried. Baby you know I tried  
But girl I hate myself and your need  
Honey get up and get out of here  
You see I tried, darling did I try, but you're a natural disaster  
You're a natural disaster

My body was shaking in your earthquakes  
You had my body quaking, from your love, no  
My life was drowning in tsunamis  
You pulled me under, baby, with your love, with your love

I'm telling you I tried, did I ever try  
But in the end I'm broken and hurt and now I know it'd never work  
You see I tried.  
Honey oh did I try

My soul it died in Armageddon  
My soul it died from your love, from your love  
You bringing these plagues on me  
You brought me to my knees from your love, from your love

You see I tried, Lord did I try, but girl you raining hell on my earth  
I pray to heaven with every word  
You see I tried, baby oh did I try, but you're a natural disaster  
You're a natural disaster  
You're a natural disaster  
You're a natural disaster

You're a natural disaster
