

## Beyond The Horizon

### People In Planes

Beyond the horizon  
People are arriving  
You're welcome to stop and stare  
'Cause nobody will ever care  
They'll never care

Beyond your horizon  
There are no delusions  
There are no musts or compulsories  
It's everything it wants to be

No, you're not gonna make it  
What planet are you on?  
No, I just don't buy it  
No one will ever care  
No, you're not gonna make it  
What planet are you on?  
No, I just don't buy it  
They'll never care

Think of all the bad things  
That could happen  
All those life threatening situations  
This is my utopia for you  
We've got everything mapped out for you  
Think of all the bad things  
That could happen  
All those life threatening situations  
We've got everything mapped out for you  
This is my utopia for you  
They'll never care
