

I Wish You'd Fall Apart

People In Planes

Can you decide?
Stop umming and arring
You'd kick yourself
If you knew what you'd get into

I wish that you'd fall apart

Lucifer
You keep following me around
We speak
A whole language of our own

I wish that you'd fall apart
Give me that puzzle to start
I wish that you'd fall apart
Give me that puzzle to start
You cast me off like a spell
And I was missing you like hell

I will honestly believe
What you tell me
Just as long as I am innocent
I forgot my medicine
Sailed into the storm
'Cause there was never a warning
Your wish is my command
Mine's not worth a damn
But let's pretend

I wish that you'd fall apart
Give me that puzzle to start
I wish that you'd fall apart
Give me that puzzle to start
You cast me off like a spell
And I was missing you like hell
