

When you feel like a child  
And you know to get some sleep  
You haven't sleep for days  
Thinking about your troubles makes me weak  
I wrote it down when I left the bed last night  
Don't rest your head with night terrors all around  
She is leaving in the morning  
I will meet her at the door  
It is down pouring  
I'm not beating on a drum anymore  
I wrote it down when I left the house last night  
On new year's eve just leave on the lights  
Let yourself go back
