

When you feel like a child
And you know to get some sleep
You haven't sleep for days
Thinking about your troubles makes me weak
I wrote it down when I left the bed last night
Don't rest your head with night terrors all around
She is leaving in the morning
I will meet her at the door
It is down pouring
I'm not beating on a drum anymore
I wrote it down when I left the house last night
On new year's eve just leave on the lights
Let yourself go back
