

# Big Mistake

Pepper

Let's make a big mistake  
And believe what I'm saying  
Cuz these feelings here won't shake  
And your mind will be playing  
Tricks on you  
Don't believe, don't believe are the rules

I got a feeling that you were right  
You're holding up your life, I know your  
Time is chasing, the clock is racing  
It's all coming after you  
And I say

Let's make a big mistake  
And believe what I'm saying  
Cuz these feelings here won't shake  
And your mind could be playing  
Tricks on you  
Don't believe, don't believe are the rules

Now is it worth its weight in gold  
Or should we melt it down to be sold?  
You're always giving up  
No one ever needs to know your  
Hoping that I'm wrong this time for sure

Let's make a big mistake  
And believe what I'm saying  
Cuz these feeling here won't shake  
And your mind could be playing  
Tricks on you  
Don't believe, don't believe are the rules  
Yeah

Let's make a big mistake  
And believe what I'm saying  
Cuz these feeling here won't shake  
And your mind will be playing  
Tricks on you  
Don't believe, don't believe are the rules  
Yeah

Let's make a big mistake  
Let's make a big mistake  
Let's make a big mistake
