Pepper

And I  
will hate you forever  
And I  
will hate you forever

Since the day you took this love  
I often stop to wonder just what youre thinking of

Now it's me in control  
Got no heart but got this feeling in my soul

Forever  
I'll hate you forever  
I'll hate you forever  
I'll hate you forever

Girl you know you had your great stuff  
you've been with alotta guys  
and I've been with alotta women  
infact I've been with a hell of alotta women!  
but thats not the point  
were talking bout you not me  
see you coulda been at the top of my list  
but theres just one problem  
you just a trickass ho!

Forever  
I'll hate you forever  
I'll hate you forever  
I'll hate you forever

And those lines in your face tell the tragic story  
of late nights and heart breaks  
but youre drunk sorry  
so I look a little trip  
but those thoughts came to slow  
never realizin that you'll always be a ho!

Forever  
I'll hate you forever  
I'll hate you forever  
I'll hate you forever

I'll hate you...
