

Outta My Face

Pepper

Outta my, get outta my face
Outta my, oh get outta my face
Outta my, get outta my face
Outta my, oh get outta my face
You don't belong here
You don't belong here
And there's one thing you should know
Bend or break the pressures on my shoulders
I can see the violence on the TV
But I know that's something that never ever will be
So outta my, get outta my face
Outta my, oh get outta my face
Outta my, get outta my face
Outta my, oh get outta my face
You don't belong here
You don't belong here
And someday you'll ego will let you be
Maybe then this world will let you breathe
Righteous and visions have always been free
And fire brimstone is all your gonna get from me
Get outta my, get outta my face
Outta my, oh get outta my face
Outta my, get outta my face
Outta my, oh get outta my face
You don't belong here
No you don't belong here no
You don't belong here
No you don't belong in my face, my face
