

## Stone Love

Pepper

Stone love with the number one sound  
A 44 in the background

A platinum selector of the time  
Don't watch my size in this hall  
While my backs against the wall  
Take a ride, competition take a ride  
Pull it operator watch the other side  
Thought it were over, so far from done, Oo  
As they dance into the sun

Some big up new style holding trophy cups  
Rory select while these speakers erupt  
Sound sweeter in an echo chamber  
Don't you know they are the danger  
3 bottles of Cristal and it's agreed  
The best could only come from the Don Wesley  
Close my eyes when I take a ride

Fold up the bag in a yard style  
Don't worry bout that you see it's all natural  
Police chasing this bandilero  
Running down the road with my thick payroll  
One stop was my music shop  
When I heard this guitar screamin

Some big up new style holding trophy cups  
Rory select while my speakers erupt  
The sounds sweeter with an echo chamber  
Don't you know that they are the danger  
3 bottles of Cristal and it's agreed  
The best could only come from the Don Wesley  
Close my eyes when I take a ride

Take a ride everybody take a ride...
