

Tongues

Pepper

Chop up your heart with my truthfull tongue. Don't touch me girl
until the song is done, and when
I leave you'll hear the song I've sung that is the way I'll have
my fun....Sleepin creepin evidence your
leavin wish you were here so I could sleep just shy of a lie. Open
up the window sill find a cold peice of
anything that I ever loved...only thing I ever loved...

Does she know my name? Doesn't mean a thing, and if my luck don't
change I'll probly be the last
one standing.....standing here...probly be the last one standing
here.

Does she know my name? Doesn't mean a thing, and if my luck don't
change I'll probly be the
last one standing. Climb through my window please, get on my bed
and freeze and if my mind don't change
I'll probly be the last one standing here...Lord, standing here
....only thing I ever loved... only thing I
ever loved...only thing I ever loved...only thing I ever loved
was

You (sleepin creepen evidence your leavin) you are the last one
....
