My love is like a jet black high speed train going nowhere then comming back again

I wish I could
I'd love to touch
her perfect golden tan
Got a burned out heart
but I deal with it the best I can

And where I come from you use small words In quiet silence everything gets heard

Oh man, I'd really like to scream out loud, he-ey I know you'll understand Got a burned out heart and I deal with it the best I can

(Floating in a dream)
Na na na
(Floating in a dream)
Floatin' in a dream! ah ha!

I wish I could
I'd love to touch
her perfect golden tan
Got a burned out heart
but I deal with it the best I can
Got a burned out heart
but I deal with it the best I can
Got a burned out heart
but I deal with it the best I can
but I deal with it the best I can
