

I Like It Like That

Per Gessle

Ever since we got together
Everything looks easy to me
Its wonderful
And the moment I saw you
You truly made an impact on me
It was wonderful
Right in that crowd
Oooh! my heart was pumpin
Beatinout loud

I like it when you come around
You make me feel so very good
I like it when I leave the ground
Just by walkinin your neighbourhood
I like it when your body answers
Baby, do you wanna dance?
To be with you is all I have
I kinda like it like
I like it like that

Ever since we got together
My life has got a different view
Really beautiful
And when it comes down to it
The worlds a better planet
Once you have been found

I like it when you come around
You make me feel so very good
I like it when I leave the ground
Just by walkinin your neighbourhood
I like it when your body answers
Oh baby, do you wanna dance?
To be with you is all I have
I kinda like it like
I like it like

I like it when you come around
You make me feel so very good
I like it when Im off the ground
Just by walkinin your neighbourhood
I like it when your eyes are laughin
Oh baby, do you wanna dance?
To be with you is all I am
I really like it like that
I really like it like, I like it like that
