I Want You To Know

Ever since I saw you Entering my world Life has really changed To diamonds and pearls

I'm tryin' to take it slow Just goin' with the flow

I want you to know I want you to stay, don't go

Every day's the same Like cracs on the wall (cracs on the wall) But every time I meet you All walls start to fall

But I'm tryin' to take things slow Just goin' with the flow

I want you to know I want you to stay, don't go I want you to know I 'm comin' your way, don't go

I want you to know I want you to stay, don't go I want you to know I'm comin' your way, don't go

I want you to know Yes, I want you to stay, don't go I want you to know I want you today, don't go

Stay, stay, stay Stay, stay, stay **Per Gessle**
