

## Sing Along

Per Gessle

You played along the first time  
That I saw you  
You left me with a blanket  
On the ground  
I dreamed I watched you dancin' away  
My night until dawn

Suddenly I don't know  
Where to find you  
I followed every mood  
You made in town  
I listened to the songs  
That I know you know  
The sound turned down

Sing along  
Sing along  
You don't know what's happenin' to me  
You don't know what you are doin' to me  
You don't know what you are doin' to me

Hey baby, I've been speedin' up  
The side roads  
Across the shiny river  
To your house  
Tryin' to find out what you want  
What you need to bring us close

You made me smile  
The first time  
That I saw you  
You left me on a blanket  
Made of clouds  
I dreamed I watched the sun  
Playin' in your eyes  
The lights turned down

Sing along  
Sing along  
You don't know what's happenin' to me  
You don't know what you are doin' to me  
You don't know what you are doin' to me
