

Over The Moon

Pere Ubu

I wanna be like you are.
I wanna rewrite your name.
I wanna live in the heart of someone,
and ride the mystery train.
And only you and I will know it.
We lived like we never belonged.
On the night we went falling we were too tired of just
hanging on.

I wanna be like a house on a hill.
I want the clouds in my eyes.
I want to live like them people in love who I see
advertized.
And only you and I will know it.
We lived like we never belonged.
And only you and I will know it.
We lived like we never belonged.
On the night we went falling we were too tired of just
hanging on.

I wanna be like the moon.
I wanna roll through the harvest skies.
I wanna look down on your house,
and be the moonbeam in your eyes.

And only you and I will know it.
We lived like we never belonged.
On the night we went falling we were too tired of just
hanging on.
