

## Street Waves

Pere Ubu

I ride a street wave right by her side  
and I can hear the city city comin round  
The things I say hit the air and seem to fall apart  
and I can see the faces faces fallin down  
And then I'm  
gone  
gone  
gone by her heart

I get a picture of what it'll be like  
I turn the channel round to Channel 43  
I see electricity jump and spark  
I see electricity uh real and stark  
And then I'm  
gone  
gone  
gone by her heart

I ride a street wave right by her side  
and I can hear the city city comin round  
The things I say hit the air and seem to fall apart  
and I can see the faces faces fallin down  
And then I'm  
gone  
gone  
gone by her heart  
And then I'm  
gone  
gone  
gone by her heart
