

Believe

Perkele

They try their best to bring you down to the ground
To make sure they're still in charge
You gotta promise you will rise up again
To show them all how fucking wrong they are

Never lose your pride, never lose your strength
Never lose your hope, never lose your faith
Never stop believing in yourself
Believing in yourself, believing in yourself

They try their best to hold you down to the ground
To make sure you're not a threat
You gotta promise me to never let them win
To show the world you won't take shit, no more
