

# Don't Escape

Perkele

Don't even think about running away from your life, getting high

You must get strong, find a life - No fucking dope, start to struggle

You can't sit there, feeling sorry for yourself - Up on your feet, show your pride

It's about your life and our future - Don't let the dope take your life away

Chorus 1:

Don't escape - Fight for your life

Don't escape - Fight for our future

Don't escape - Fight for your life

Don't escape - Fight for your life

Junkies and whores everywhere, do you really want 'em around

Now it's time to clean up the mess from our streets, in our town

Ain't you afraid of what's going on in the backstreets of your neighbourhood

We must defend what is ours and show them all who's still in charge

Chorus 2 (4x):

Från flykt till kamp - Ut i striden fram
