

Got Enough

Perkele

The cops are here to beat you down
the pigs are chasing you
you've done no wrong
but they don't care
they got nothing better to do
the cops are always behind you back
they're always watching you
soon they're there to beat you up
for no reason at all

What you gonna do
when you're standing alone
when the people got enough
when the people got enough

What you gonna do
when you're standing alone
when the people got enough
when the people got enough

What you gonna do
when you're standing alone
when the people got enough
when the people got enough

What you gonna do
when you're standing alone
when the people got enough
when the people got enough

I'm tired of the boys in blue
always messing with us
with a cop car around the corner
full of wanking cops
maybe it's time to think again
you'd better watch your back
the people are full of hate
and waiting for revenge

What you gonna do
when you're standing alone
when the people got enough
when the people got enough

What you gonna do
when you're standing alone
when the people got enough
when the people got enough

What you gonna do
when you're standing alone
when the people got enough
when the people got enough...
