

# Leave Me Alone

Perkele

I chase shadows, and I really don't know where to go  
Please someone help me, to light the ghost inside my head  
I hear voices, sometimes they tell me what to do  
Leave me alone, let me take command over my own life

Get the hell out of my life  
Get the hell away from me  
Let me go, leave me alone

I live in darkness, and I really don't know how to breathe  
Please someone help me, to find the way out of the dark  
I feel panic, and it holds a grip around my heart  
Leave me alone, let me take control over my own life
