

## Leave Us Alone

Perkele

The only thing you're interested in is our political wing  
Listen to our music instead of spreading your fucking lies  
We don't care about politics, we just care about the kids on the street

We play Oi! for the Working Class and not for the politicians

We're playing Oi! for the kids on the street

So why don't you leave us alone

We're playing Oi! for the kids on the street

So keep along way from here

I don't wear a political uniform, I dress for my way of life

Media and political fanatics are chasing us all the time

A constant fucking baiting, why can't they leave us alone

You ain't got a clue what it's all about, so keep along way from here
