

## Politicians

Perkele

Politicians don't care about you and me  
We don't fit in their society  
They only think about how much they earn  
So fight the politicians and let them burn

They don't care about you - you, you, you  
They don't care about me - me, me, me  
So why should we follow their lines  
Lines that make us to slaves

Politicians don't care about you and me...

Politicians don't care about you and me  
We don't fit in their society  
They only think about how much they earn  
So fight the politicians and let them burn
