

Sad to see

Perkele

They are destroying parts of our history
Don't care about us, they all full of greed
I love buildings, it tells us about our past
I hate to see it smashed to the ground

It's really sad to see
It's really hurting me to see them rape our land
It's really sad to see
It's really hurting me to see them rape our land

It is with sorrow I look at our town
I can't forgive that you have run it down

It's really sad to see
It's really hurting me to see them rape our land
It's really sad to see
It's really hurting me to see them rape our land

It's really sad to see
It's really hurting me to see them rape our land
It's really sad to see
It's really hurting me to see them rape our land

It's really sad to see
It's really hurting me to see them rape our land
It's really sad to see
It's really hurting me to see them rape our land

It's really sad to see
It's really hurting me to see them rape our land
It's really sad to see
It's really hurting me to see them rape our land

It's really sad to see
It's really hurting me to see them rape our land
It's really sad to see
It's really hurting me to see them rape our land
