

Someday

Perkele

It feels like I'm fighting all alone
And no one out there hears my voice
Am I hollow, Am I mute
Do I exist or am I dead

I know someday
Someone will hear my voice
And I will never be alone again
I know someday
Someone will hear my voice
And I will never be alone again

It feels like no one understands
And no one out there really cares
Can't you hear, are you blind
Am I fighting all in vain

I know someday
Someone will hear my voice
And I will never be alone again
I know someday
Someone will hear my voice
And I will never be alone again

I know someday
Someone will hear my voice
And I will never be alone again
I know someday
Someone will hear my voice
And I will never be alone again
