The Disease

Perkele

Junkies around the corner, kids are getting high
A land is getting diseased by the shitheads on the streets
Media spreading lies, papers full of shit
And who can you trust with these lies around

We have to fight the disease
No, we ain't gonna take it anymore

We have to fight the disease
No, we ain't gonna take it anymore

Paedophiles in the bushes, kids are getting raped
Smash their fucking heads to fight the spreading disease
Sects delude people to believe in their fucking lies
And commit suicide for their sick belief

We have to fight the disease
No, we ain't gonna take it anymore

We have to fight the disease
No, we ain't gonna take it anymore
