

Tired Of You

Perkele

I got a dream that I'm fighting for - That you're trying to destroy

What's wrong with you, what's the point - You better watch out

I am the winner, you are the loser - Get used to that

I got the truth, you got the lies - My dream will come true

(4x)

I'm so tired of you ... standing in my way, standing in my way

I do believe and I always will - What can you do about that

You got no chance, I'm too strong - You better give up

I got the strength and I know you don't - Stay away from me

I know what's right and I know you're wrong - I will fight till the end

(4x)

I'm so tired of you ... standing in my way, standing in my way
