

Weekend

Perkele

It's time for work and it feels like the first day will never end

My back it hurts and it hurts more for every day

I'm waiting for the weekend that I've been waiting for too long

Now the Friday's here and it's time to drink some beer

And when the weekend's here, it's time to drink some beer

And the work is left behind

The weekend is over and now it's time to work again

And it's so sad, because the weekend felt too short

But we will know that it's Friday soon again

And when the weekend's here, we're going to drink some beer

And when the weekend's here, it's time to drink some beer

And the work is left behind
