

## Tropic Of Cancer

Perry Blake

Sing that song that no one wants to hear  
Sing that song so loud and sing it clear  
Sing that song that no one seems to know  
Sing it to me slow  
Bring me back to when i was a boy  
Full of life and love and full of joy  
Bring me back to when i was a child  
Baby make me smile

Tropic of cancer  
You win and you lose  
Get so high and so low  
And so blue

Limping to the finish with my pride  
Next time it won't be somebody's bride  
Yin and yang discreetly by my side  
How was it for you

Tropic et cancer  
You win and you lose  
Get so high and so low  
And so blue

Tropic of cancer  
You win and you lose  
Get so high and so low  
And so blue
