```
Stay with me . . . stay with me don't leave me now when you know how I depend on you every day . . . every way my little world revolves all around you . . .

Before you came my way, my days were grim an' gray but then you smiled, an' I knew dear my dreams had come true dear . . .

Love is mine . . . you are mine . . .

Now, life is sweet . . .

let me keep the love you've brought to me Say it's for . . . evermore say that you'll stay with me!

Say it's for . . . evermore say that you'll stay an' stay please say that you'll stay . . . with me!
