Wipe Out

Persuader

The world is trembling
This world is torn and bleeding
No hopes or promises
No one to lead us

Of Mother Nature with might We took control
The sound of darkness
Can you hear the call

Embrace technology's true faces
(the poison or the cure)

By the weakness of men you made earth to your grave I brought you the sun to find you burning My innocence you shattered and denied Armageddon Wipeout

Our end closing in Our time on earth expired Like fools we celebrate This downward spiral

We'll find salvation through destruction Bright, pure holocaust An end to save us all

Pass your sense to me
Breath again and never be the same
Awaiting resurrection
Now the time has come
Bring me back to life
