

Aura Negative

Pestilence

The virgin soul no longer white
Shining devious through the skin
The body's aura losing its bright
Mental projection of the sin

The sicker the body and soul
The more negative the aura gets
Blacker than the blackest coal
revealing the negative that affects

The aura cannot lie and hide
This true entity that is so grim
Egoism overshadows all pride
Chance of mental recovery is slim

The sicker the body and soul
The more negative the aura gets
Blacker than the blackest coal
revealing the negative that affects

Ego no longer separated from lies
So the conscious cannot see
The truth is smothered and dies
Trapped in structure and no longer free
