

Displaced

Pestilence

This intense feeling of not being
Has taken the soul into a dissonance
When the inner core is not seeing
And cannot find any anchors of relevance

The transition of life into the next
Can sometimes be so surreal
Mental protection now is in effect
To preserve the soul from the feel

Amongst the spirit worlds and deities
You will have to find your place
Eternities of wisdom and prophecies
Mental projection at your own pace

The transition of life into the next
Can sometimes be so surreal
Mental protection now is in effect
To preserve the soul from the feel

Repeated psychosis
Inside the derkened void
Demonic hypnosis
Human intelect destroyed

This intense feeling of not being
Has taken the soul into a dissonance
When the inner core is not seeing
And cannot find any anchors of relevance

The transition of life into the next
Can sometimes be so surreal
Mental protection now is in effect
To preserve the soul from the feel
