

## Neuro Dissonance

Pestilence

Trapped in onself  
Neuro signals distorted  
To become a hazard to yourself  
Mental thoughts aborted  
Emotional disruptance  
Slice my flesh up to maim  
Suppressed by medication, help me  
Dreaming the dead in lucidity

Neuro Dissonance

Thought patterns in an illogical trial  
Are scanned with human technology  
Unravelling the secrets and details  
Of the horror that's inside of me

Abnormalities rejected as just not true  
Refusing to accept the truth lies in you  
Function of the cortex detaches reality  
Altered stae of consciousness now you see  
Overload of signals in the synapsis  
The dissonance takes over all emotions  
Now seeing humans for the monsters they are

Neuro Dissonance

Trapped in onself  
Neuro signals distorted  
To become a hazard to yourself  
Mental thoughts aborted
