

## Personal Energy

## Pestilence

The temple of the soul  
Home of the spiritual source  
Blessed with powers we unfold  
Human magnetism, uncontrolled

Personal energy  
The magic of nature  
A presence of ourselves  
we can not see

Personal energy  
Consciousness, life towards  
the essence of eternity

A domain of harmony  
Captured past and future  
A vision of reality  
Divided structures,  
the higher senses, polarity around all creatures,  
Increasing possibilities of self-discovery,  
Energetic thoughts creating electricity
