

# Burn

**Pet Shop Boys**

All the stars are flashing high above the sea  
And the party is some fun 'round you and me  
We're gonna burn these disco out before the morning comes  
We're gonna burn these disco out before the morning comes  
We're gonna burn these disco out before the morning comes  
We're gonna burn these disco out before the morning comes

It feels so good,  
It feels so good,  
It feels so good,  
It feels so good

There's a form glowing weird above the sea  
And I feel the sound and heat between you and me  
We're gonna burn these disco out before the morning comes  
We're gonna burn these disco out before the morning comes  
We're gonna burn these disco out before the morning comes  
We're gonna burn these disco out before the morning comes
