Boy it's tough getting on in the world When the sun doesn't shine and a boy needs a girl It's about getting out of a rut, you need luck But you're stuck and you don't know how, oh

(Don't have to be) A big bucks Hollywood star (Don't have to drive) A super car to get far (Don't have to live) A life of power and wealth (Don't have to be) Beautiful but it helps (Don't have to buy) A house in Beverly Hills (Don't have to have) Your daddy paying the bills (Don't have to live) A life of power and wealth (Don't have to be) Beautiful but it helps

You need more

Than a big blank check to be a lover, or A Gulfstream jet to fly you door to door Somewhere chic on another shore

You need more You need love
You need love
You need love

Too much of anything
Is never enough
Too much of everything
Is never enough

Boy it's tough getting on in the world When the sun doesn't shine and a boy needs a girl It's about getting out of a rut, you need luck But you're stuck and you don't know how, oh

(Don't have to be) A big bucks Hollywood star (Don't have to drive) A super car to get far (Don't have to wear) A smile much colder than ice (Don't have to be) Beautiful but it's nice

You need more

Than the Gerhard Richter hangin' on your wall A chauffeur-driven limousine on call To drive your wife and lover to a white tie ball

You need more You need love

I believe that we can achieve The love that we need I believe, call me nauve Love is for free

(Don't have to be) A big bucks Hollywood star (Don't have to drive) A super car to get far (Don't have to live) A life of power and wealth

(Don't have to be) Beautiful but it helps Beautiful but it helps Beautiful but it helps
