

Together

Pet Shop Boys

Together we'll go all the way

Tell me what you want from me
Give me what I need from you
Anything you want to do
I'm gonna need to follow through
Everything I have is yours
I pray you understand because
Whatever you want to do
I'm gonna be with you

Together's amazing
Together we're blazing
Together we'll go all the way
Together
I'll cry with you
Together
I'll die with you
Together we'll go all the way

Now my heart is beating fast
Time is short, the die is cast
I can keep a secret
If you can really mean it and
Feel the luck beside us
And so much love inside us
Whatever we have to do
I'm gonna be with you

Together's amazing
Together we're blazing
Together we'll go all the way
Together
I'll cry with you
Together
I'll die with you
Together we'll go all the way

Everything's easy
In this state of mind
The world starts to fade
As we leave it behind

Together's amazing
Together we're blazing
Together we'll go all the way
Together
I'll cry with you
Together
I'll die with you
Together we'll go all the way
Together we'll go all the way
