

Going Whichever Way The Wind Blows

Pete Droge

Going whichever way the wind blows,
You were caught in your world,
I was lost in mine.

Going whichever way the wind blows,
Staring through the windshield,
Seeing the other side.
Let it go, it will get easier,
Let it go, just enjoy the ride.

Going whichever way the wind blows,
Spacing on the road map,
Useless dots and lines.

Going whichever way the wind blows,
Tearing out the pages,
Just to watch them fly,
Let it go, it will get easier,
Let it go, just enjoy the ride.

Let it go, it will get easier,
Let it go, just enjoy the ride.

Going whichever way the wind blows,
Going whichever way the wind blows,
Stare into the rearview, leave it all behind
