

Train Love To Stay

Pete Droge

Burning is the fire
Not like in any other house
She gave herself

A chimney for the smoke
Like laughter to a joke
She gave herself

Doesn't feeling like lyin'
When she's busy tryin'
To train love
Everybody wants to
Train love to stay

Train love
Everybody wants to
Train love to stay, not walk away

She's been up for days
Running back the plays
That he made on her

He'd become afraid
Of what might've happened if he'd stayed
In her universe

You won't catch her cryin'
She's too busy tryin'
To train love
Everybody wants to
Train love to stay

Train love
Everybody wants to
Train love to stay, not walk away

I learned that love that wants to walk away
Ain't the one that I should want to stay
Who was I to think that I could
Train love
Everybody wants to
Train love to stay

Train love
Everybody wants to
Train love to stay, not walk away.

Everybody wants to train love... x7
