

# One Train

Pete Francis

One train  
You caught the old man looking  
You thought I was insane  
But I guess you were right  
It's all lips and hips and slowing down  
Feeling love when we're on the ground

Ain't that cool  
Please don't leave me, leave me  
Everytime I run  
It's like you got a gun on me girl  
Please don't leave me, leave me  
I'm creepin' deep inside your garden of love

Everyday, I love you everyday

One train  
You caught the old man looking  
When we're cooling out like rain  
It's all lips and hips and slowing down  
Making love when we're on the ground

Ain't that cool  
Please don't leave me, leave me  
Everytime I run  
It's like you got a gun on me girl  
Please don't leave me, leave me  
I'm creepin' deep inside you garden of love

Everyday, I love you everyday

The more that I try  
I just know that you'll fly  
I need you right now, but you're leavin'  
I love when you sigh  
When you turn, when you slide  
Oh my lord find myself not believing

The more that I try  
I just know that you'll fly  
I need you right now, but you're leavin'  
I love when you cry  
When you move, when you glide  
All this time find myself not believing

Please don't leave me, leave me  
I'm creepin' deep inside your garden of love

Everyday, I love you everyday
