

# Town On Top Of Town

Pete Francis

Town on top of town  
Now I'm Montana bound

Standing on this street every night  
Got my blue truck under one street light  
I've been racing and rolling, job to job  
This time I'm picking up and going, never stop

Well I need to, I want to  
I won't let you go

Town on top of town  
Now I'm Montana bound

Moonlight on the floor  
Another car goes by  
Trees dark and heavy  
Leaves fall from the sky  
I'm a guard for something, a guard for something  
God only knows  
I feel the wind coming  
I feel the wind coming

Well I need to, I want to  
I won't let you go

Town on top of town  
Now I'm Montana bound
