

Better Days

Pete Murray

I saw it coming,
I saw emptiness and tragedy
And I felt like running, so far away
Then knew I had to stay
And I know when I'm older
I'll look back and I'll still feel the pain
I know I'll be stronger, and I know I'll be fine, for the rest
of my days

I've seen better days
Put my face in my hands
Get down on my knees and I pray to God
Hope he sees me through til the end

I notice most things, but I didn't notice the change
It was hot in the morning
Then it turned so cold towards the end of the day
And there's no condensation
I just felt like I was in space
I needed my friends there, I just turned around
They were gone without a trace

I've seen better days
Put my face in my hands
Get down on my knees and I pray to God
Hope he sees me through til the end

Now I have just started, and I won't be done, til the end
There's nothing I have lost
That was once placed, in the palm of my hands
And all of these hard times, have faded round the bend
Now that I'm wiser
I cannot wait til I can help my friends

I've seen better days
Put my face in my hands
Get down on my knees and I pray to God
Hope he sees me through til the end

I've seen better days
Put my face in my hands
Get down on my knees and I pray to God
Hope he sees me through til the end
