

## Better Days

Pete Murray

I saw it coming,  
I saw emptiness and tragedy  
And I felt like running, so far away  
Then knew I had to stay  
And I know when I'm older  
I'll look back and I'll still feel the pain  
I know I'll be stronger, and I know I'll be fine, for the rest  
of my days

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through til the end

I notice most things, but I didn't notice the change  
It was hot in the morning  
Then it turned so cold towards the end of the day  
And there's no condensation  
I just felt like I was in space  
I needed my friends there, I just turned around  
They were gone without a trace

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through til the end

Now I have just started, and I won't be done, til the end  
There's nothing I have lost  
That was once placed, in the palm of my hands  
And all of these hard times, have faded round the bend  
Now that I'm wiser  
I cannot wait til I can help my friends

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through til the end

I've seen better days  
Put my face in my hands  
Get down on my knees and I pray to God  
Hope he sees me through til the end
